

CD PRINT SPECIFICATION
16: Scent Disc®

In addition to our specifications for dry offset label printing, the following parameters apply for the Scent Disc® :

Printing sequence:

1st colour = silk-screen

2nd - 5th colours=Dry offset (standard process colours C M Y K)

6th colour = silk-screen (gloss varnish with encapsulated scent particles)

Fragrance:

The surface to which the perfumed coating is applied should occupy an area of at least 15 cm². Please bear in mind that the process will cause a slight distortion of the original fragrance and that the coated area will not appear as glossy. A list of all the available fragrances can be obtained on request.
