

PRINT SPECIFICATION

1: Braille

Print format:

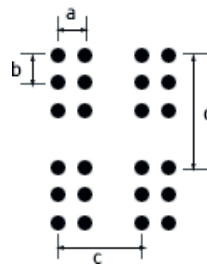

Outside diameter: 116 mm
 Inside diameter: 40 mm

Adjustment Points:

Two „counter balance“ dots must be placed on the disc opposite the braille text. These dots are necessary for a correct function of the product. These counter balancedots are not required if the braille text is distributed evenly on the disc.

Font size:

The font size must be chosen in accordance with the following table:

a	b	c	d	Diameter
mm	mm	mm	mm	mm
2.5	2.5	6.0	10.0	1.7

The braille text is printed using the silk screen printing technique and can be printed directly on an offset or silk screen motif. Please note that the artwork should not contain any more than 5 colours, as the braille text is printed as 6th or last colour.
